# Audience Testimonials

**“The event was fantastic. It was really interesting to hear the different perspectives to innovation especially in the government space.”**

Commonwealth of Virginia

**“Your team made the day seamless, safe and easy to learn from some great folks. I very much enjoyed the day.”**

Arlington County Government

**“I thought the event was very nice and covered many different topics. It really showed the talent in Virginia in technology and I was impressed with some of the case studies of pivoting quickly during the pandemic. There’s still lots to do to modernize the public sector, it’s great that your organization supports that effort.”**

Prove

**I wanted to send a HUGE thank you for hosting such a fantastic government event this week in Virginia. It was so great to be able to get together as a team and to see so many customers and partners in attendance. The attendees were primarily C-level (CIO, CTO, Deputy Secretary, etc.) and the presentations and panels were extremely relevant and conversational. The coordination with our team from panel participation preparation, to booth selection, event app and lead scanning, customer marketing materials and onsite logistics was excellent. The onsite team ensured we had everything we needed and customers were engaged. We are looking forward to following up on all of the leads created at our booth. We thank you for including us!”**

## About Us

Public Sector Network connects government organizations across the globe.

Our mission is to give public sector professionals a single place to come together, share ideas, and get free, unlimited access to the latest information about critical topics that are transforming the government landscape.

Our government-only network helps members find relevant international content and case studies that are critical to your work and can help you save time, and money. For those who are looking to network at a deeper level, we hold insightful online and in-person events, ranging from conferences and exhibitions, to intimate training courses and forums across major cities around the world.

The Public Sector Network (PSN) is a certified B Corporation, a business that meets the highest standards of verified social and environmental performance, public transparency, and legal accountability to balance profit and purpose.

The goal of the B Corps is to accelerate a global culture shift to redefine success in business and build a more inclusive and sustainable economy.

Public Sector Network events, like the Public Sector Innovation Show, limit waste where possible. Initiatives like using reusable dishware instead of plastic disposable options and limiting paper through use of our event app are only small examples of our commitment to sustainability.

## Become a Supplier

We understand that government need to partner with private sector, but this can often be a crowded, noisy market.

Our network is designed for public sector professionals only as it maintains the credibility of our content for our government members.

In order to help our members connect with private sector, we have created Public Sector Network's Marketplace where solution and service providers can create free profiles showcasing their business. Our members can easily search for any requirement and connect directly with you.

If you want to get exposure to our ever-growing membership, then start your free page today.
